### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Claims 5-8 are considered allowable over the prior art in view of applicant's clarification that the claims are directed to a method of inserting a value of "0" or "1" before the modulo\_time\_base element in the VOP syntax of Figure 1 so less data need to be transmitted for a non-coded VOP than when the value is inserted after the modulo\_time\_base element because the modulo\_time\_base element is not transmitted. The closest "prior art", Figure 1 of Applicant's own specification, discloses a conventional syntax for transmission of a VOP according to the MPEG-4 standard. However, applicant maintains that Figure 1 is not prior art to the current invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
